

Sneha Mehta – Portfolio

About Me

Creative and detail-oriented tech enthusiast with interests in software development, UI/UX design, and Artificial Intelligence. Passionate about building impactful projects that combine innovation, functionality, and user-centered design. Skilled in problem-solving, teamwork, and learning new technologies through hands-on projects and collaborative environments.

Education

VIT Bhopal University

Integrated M.Tech in Data Science

Relevant Areas of Interest:

- Artificial Intelligence & Machine Learning
- UI/UX Design
- Software Development
- Cybersecurity
- Data Analytics

Technical Skills

Programming Languages

- Python
- C++
- HTML & CSS

Tools & Platforms

- GitHub
- VS Code
- Canva
- Figma
- Google Colab

Areas of Interest

- Artificial Intelligence
- Generative AI
- UI/UX Design
- Frontend Development
- Problem Solving
- Cybersecurity

Projects

AI-Powered Fraud Detection & Authentication System

Overview

A smart fintech security solution designed for banking systems that uses AI-driven behavioral analysis and anomaly detection for secure authentication.

Features

- Behavioral authentication
- Real-time anomaly detection

- Password-less login system
- AI-based fraud monitoring
- Privacy-preserving security mechanisms

Technologies Used

Python, Machine Learning, Streamlit, APIs, Data Analytics

Key Learnings

- AI integration in security systems
- User behavior analytics
- Secure authentication workflows
- Team collaboration and research

Bus Reservation System

Overview

A complete reservation system that allows users to book, cancel, and manage bus tickets efficiently.

Features

- User login and authentication
- Ticket booking and cancellation
- Admin dashboard
- Database management
- Seat availability tracking

Technologies Used

Python, SQLite/MySQL, File Handling

Key Learnings

- Database management
- Backend logic development
- System architecture planning
- Debugging and testing

Digital Literacy Portfolio

Overview

A project focused on spreading awareness about digital literacy, cyber safety, professional communication, and responsible internet usage.

Features

- Infographic design
- Email etiquette demonstrations
- Cybercrime case study
- Professional online presence activities

Tools Used

Canva, GitHub, Documentation Tools

Key Learnings

- Digital communication
- Content organization
- Design presentation
- Cyber awareness

Design & Creative Work

Areas of Design Interest

- Event Posters
- UI/UX Interfaces
- Social Media Creatives
- Branding & Typography
- Presentation Design

Design Tools

- Canva
- Figma
- Photoshop (Basic)

Notable Design Tasks

- Generative AI Hackathon Posters
- Club Recruitment Creatives
- Event Branding Concepts
- Infographic Designs

Achievements & Participation

- Participated in hackathon idea development and AI innovation challenges.
- Worked on real-world themed fintech cybersecurity concepts.
- Contributed to technical and design-based collaborative projects.
- Developed multiple academic and personal software projects.

Leadership & Teamwork

- Comfortable working in collaborative environments.
- Skilled in communication and project coordination.
- Able to manage responsibilities under deadlines.
- Interested in contributing to technical and creative communities.

Why I Want to Join a Tech Club

I want to join a tech-focused community to enhance my technical and creative skills while collaborating with passionate individuals. Being part of a club will help me gain practical experience, contribute to impactful projects, and continue learning through teamwork, innovation, and real-world problem solving.

Future Goals

- Build impactful AI-driven applications.
- Explore advanced UI/UX and frontend technologies.
- Contribute to innovative tech communities and hackathons.
- Develop scalable solutions that create real-world impact.

Portfolio Highlights

- AI & Fintech Security Concepts
- Software Development Projects
- UI/UX and Design Work
- Technical Problem Solving
- Creative Event Branding
- Hackathon-Oriented Innovation

Thank You

Thank you for reviewing my portfolio. I am always eager to learn, collaborate, and contribute to innovative opportunities in technology and design.
